1. Перечень компетенций с указанием этапов их формирования в процессе освоения образовательной программы в рамках учебной дисциплины

Перечень и содержание компетенций указаны в рабочей программе дисциплины.

ОК 09. Пользоваться профессиональной документацией на государственном и иностранном языках.

Основными этапами формирования указанных компетенций при изучении студентами дисциплины являются:

начальный - на этом этапе формируются знаниевые и инструментальные основы компетенции, осваиваются основные категории, формируются базовые умения. В целом знания и умения носят репродуктивный характер. Студент воспроизводит термины, факты, методы, понятия, принципы и правила; решает учебные задачи по образцу. Если студент отвечает этим требованиям можно говорить об освоении им порогового уровня компетенции;

основной этап - знания, умения, навыки, обеспечивающие формирование компетенции, значительно возрастают, но еще не достигают итоговых значений. На этом этапе студент осваивает аналитические действия с предметными знаниями по конкретной дисциплине, способен самостоятельно решать учебные задачи, внося коррективы в алгоритм действий, осуществляя саморегуляцию в ходе работы, переносить знания и умения на новые условия. Успешное прохождение этого этапа позволяет достичь повышенного уровня сформированности компетенции;

завершающий этап - на этом этапе студент достигает итоговых показателей по заявленной компетенции, то есть осваивает весь необходимый объем знаний, овладевает всеми умениями и навыками в сфере заявленной компетенции. Он способен использовать эти знания, умения, навыки при решении задач повышенной сложности и в нестандартных условиях. По результатам этого этапа студент демонстрирует продвинутый уровень сформированности компетенции.

Перечень планируемых результатов обучения по дисциплине, соответствующих этапам формирования в процессе освоения образовательной программы, представлен в п. 4 «Контроль и оценка результатов освоения учебной дисциплины» рабочей программы.

2. Описание показателей и критериев оценивания компетенций на различных этапах их формирования, описание шкал оценивания

Критерии определения сформированности компетенций

на различных этапах их формирования

Основой критериев для оценивания сформированности компетенции является демонстрируемый обучаемым уровень освоения учебного материала в ходе изучения учебной дисциплины.

Уровни сформированности компетенций		
ознакомительный	репродуктивный	продуктивный
Компетенция сформирована Узнавание ранее изученных объектов, свойств	Компетенция сформирована Выполнение деятельности по образцу, инструкции или под руководством	Компетенция сформирована Планирование и самостоятельное выполнение деятельности, решение проблемных задач

Показатели оценивания компетенций и шкалы оценки

Оценка «неудовлетворительно» или отсутствие сформированности компетенции	Оценка «удовлетворительно» (зачтено) или ознакомительный уровень освоения	Оценка «хорошо» или репродуктивный уровень освоения	Оценка «отлично» или продуктивный уровень освоения
Неспособность обучающегося самостоятельно продемонстрировать наличие знаний при решении заданий, которые были представлены преподавателем вместе с образцом их решения, отсутствие самостоятельности в применении умения к использованию методов освоения учебной дисциплины и неспособность самостоятельно проявить навык повторения решения поставленной задачи по стандартному образцу свидетельствуют об отсутствии сформированной компетенции.	Если обучаемый владеет общими представлениями знаниями, умениями к решению учебных заданий не в полном соответствии с образцом. Следует считать, что компетенция сформирована, но ее уровень недостаточно высок	Способность обучающегося продемонстрировать применение знаний, умений и навыков при решении заданий, аналогичных тем, которые представлял преподаватель при потенциальном формировании компетенции	Обучаемый демонстрирует способность к полной самостоятельности (допускаются консультации с преподавателем по сопутствующим вопросам) в выборе способа решения неизвестных или нестандартных заданий в рамках учебной дисциплины с использованием знаний, умений и навыков, полученных как в ходе освоения данной учебной дисциплины и считать компетенцию сформированной на высоком уровне.

<p>Уровень освоения дисциплины, при котором у обучаемого не сформировано более 50% компетенций. Если же учебная дисциплина выступает в качестве итогового этапа формирования компетенций (чаще всего это дисциплины профессионального цикла) оценка «неудовлетворительно» должна быть выставлена при отсутствии сформированности хотя бы одной компетенции</p>	<p>При наличии более 50% сформированных компетенций по дисциплинам, имеющим возможность доформирования компетенций на последующих этапах обучения. Для дисциплин итогового формирования компетенций, естественно, выставлять оценку «удовлетворительно», если сформированы все компетенции и более 60% дисциплин профессионального цикла «удовлетворительно»</p>	<p>Для определения уровня освоения промежуточной дисциплины на оценку «хорошо» обучающийся должен продемонстрировать наличие 80% сформированных компетенций, из которых не менее 1/3 оценены отметкой «хорошо». Оценивание итоговой дисциплины на «хорошо» обуславливается наличием у обучаемого всех сформированных компетенций причем общепрофессиональных компетенции по учебной дисциплине должны быть сформированы не менее чем на 60% на повышенном уровне, то есть с оценкой «хорошо».</p>	<p>Оценка «отлично» по дисциплине с промежуточным освоением компетенций, может быть выставлена при 100% подтверждении наличия компетенций, либо при 90% сформированных компетенций, из которых не менее 2/3 оценены отметкой «хорошо». В случае оценивания уровня освоения дисциплины с итоговым формированием компетенций оценка «отлично» может быть выставлена при подтверждении 100% наличия сформированной компетенции у обучаемого, выполнены требования к получению оценки «хорошо» и освоены на «отлично» не менее 50% общепрофессиональных компетенций</p>
--	--	---	---

Шкала оценивания	Критерии оценивания
«отлично»	<p>студент должен: продемонстрировать глубокое и прочное усвоение знаний материала; исчерпывающе, последовательно, грамотно и логически стройно изложить теоретический материал; правильно формулировать определения; продемонстрировать умения самостоятельной работы с рекомендованной литературой; уметь сделать выводы по излагаемому материалу</p>

«удовлетворительно»	студент должен: продемонстрировать общее знание изучаемого материала; <i>знать</i> основную рекомендуемую программой дисциплины учебную литературу; <i>уметь</i> строить ответ в соответствии со структурой излагаемого вопроса; показать общее <i>владение</i> понятийным аппаратом дисциплины;
«неудовлетворительно»	ставится в случае: незнания значительной части программного материала; не владения понятийным аппаратом дисциплины; существенных ошибок при изложении учебного материала; неумения строить ответ в соответствии со структурой излагаемого вопроса; неумения делать выводы по излагаемому материалу.

8. Прочитайте текст и затем выполните задания на понимание прочитанного:

The first stamp in the world was an English stamp. It was made in 1840 to pay the postage on letters going to different parts of the country.

Stamps are always interesting because they have pictures on them of the countries they came from; pictures of animals and birds living in jungles or on far-

away islands; and pictures showing people dressed in their national costumes.

A stamp collection is not only a good textbook of history and geography. It is also a source of information on many other subjects.

Sometimes there are mistakes on stamps. For example, the St. Kitts and Nevis stamp, issued in 1903, showed Christopher Columbus looking through a telescope, an instrument which was unknown in his day. On a German stamp, issued in 1956 in commemoration of the composer Schumann, the music printed on the stamp was not written by Schumann. The people knowing music well saw this mistake at once.

9. Определите верны ли следующие предложения. Выберите Т, если утверждение верно и F, если неверно:

9.	1	Задание № 9 Прочитайте текст и выполните задания. Parenting Styles 1. In authoritarian parenting style, children are expected to follow the strict rules established by the parents. Failure to follow such rules usually results in punishment. Authoritarian parents fail to explain the reasoning behind these rules. These parents have high demands, but are not responsive to their children. Authoritarian parenting styles generally lead to children who are obedient and proficient, but they rank lower in happiness, social competence and self-esteem. 2. Like authoritarian parents, those with an authoritative parenting style establish rules and guidelines that their children are expected to follow. However, this parenting style is much more democratic. Authoritative parents are responsive to their children and willing to listen to questions. When children fail to meet the expectations, these parents are more nurturing and forgiving rather than punishing. They want their children to be assertive as well as socially responsible, and self-regulated as well as cooperative. Authoritative parenting styles tend to result in children who are happy, capable and successful.	3

		<p>3. Permissive parents, sometimes referred to as indulgent parents, have very few demands to make of their children. These parents rarely discipline their children because they have relatively low expectations of maturity and self-control. Permissive parents are generally nurturing and communicative with their children, often taking on the status of a friend more than that of a parent. Permissive parenting often results in children who rank low in happiness and self-regulation. These children are more likely to experience problems with authority and tend to perform poorly in school.</p> <p>Ответьте на вопрос: Why are the children of authoritarian parents generally obedient and proficient?</p> <p>Варианты ответа: 1-Their parents are democratic. 2-Their parents are responsive. 3- Their parents are strict. 4- Their parents are indulgent</p>

While young people are getting married later in life, the divorce rate is increasing. Roughly 50% of all marriages in the United States now end in divorce. In cases of divorce the financial support required from the breadwinner will vary from case to case and if agreement is not possible between the two parties the court will decide. The cheapest way of getting a divorce is through the no-fault system, that is, two parties come to an agreement between themselves about the distribution of property. If there is no agreement then each hires a lawyer and the divorce will be very costly, up to \$25,000 and more for legal fees alone.

Each year, hundreds of thousands of people all over the world send and receive Christmas cards. But have you ever wondered when and where the first card was produced? You might think that exchanging cards at Christmas is a very ancient custom- in fact it is barely 100 years old. The idea of exchanging illustrated greetings and presents is, however, ancient. The Egyptians gave each other symbolic gifts such as inscribed scarabs to celebrate the New Year, while the Romans exchanged golden laurels or strenae (sometimes made of olive branches). Lamps bearing the inscription “May the New Year be happy and lucky for you” were also given.

Hidden Treasure

If, like me, your vision of the perfect Caribbean holiday involves muscovado sand beaches, blissfully warm azure sea and a constant supply of rum-based cocktails, then Antigua won't disappoint.

The island has 365 palm-fringed beaches - one for every day of the year, as Antiguan will tell you - great food and wonderful, open-hearted people.

It also has some top accommodation options, including the luxurious St James's Club. Moving from my perfectly positioned lounge was always going to be a challenge. My husband, however, had other ideas. He'd hired a jeep and was determined to explore.

Lured by the prospect of a picnic lunch in a deserted cove, I agreed to join him, and I'm very glad I did. The island has a host of unexpected treasures.

At picturesque English Harbour we explored historical Nelson's Boatyard, and bought a bag of 'black gold' - nothing to do with pirates, but the sweetest pineapple I've ever tasted.

Along the way we saw pastel-coloured houses, Eric Clapton's villa, kids playing barefoot cricket - Antigua is home to Sir Viv Richards - and more great beaches.

Our four-year-old daughter was entranced to see real bananas growing on trees and whole families of goats and chickens trying to cross the road.

For an outstanding view of the island, I heard the best place is Shirley Heights. On a Sunday afternoon this is the place to be for 'jump-up' - a traditional Caribbean party involving barbecued food, cold beer, steel band music and endless dancing.

There are plenty of boat trips on offer in Antigua and it's definitely well worth taking a catamaran cruise to the nearby island of Barbuda - home to the famous K Club resort, a spot much favoured by celebrities, including late Princess Diana. With barely anyone else in sight, even the sand at the resort feels exclusive.

Close to Barbuda, and only accessible by boat, is a sanctuary for the magnificent frigate bird. The males have bizarre large red balloons beneath their beaks, which they plump up during the mating season to attract females.

Back on land we made the bone-rattling journey to Brown's Bay on the east side of the island for an exquisite dinner at the upmarket B&B Harmony Hall. Not only does the place offer local arts and crafts and a stunning view of uninhabited Green Island (brilliant snorkelling) but it also serves the best daiquiris ever. Bliss.

Do Cows Point North?

By David Derbyshire, Environment Editor

If you're (0) A in the countryside without a compass, don't panic. Just look for a herd of cows and see which way they are pointing.

After (1) _____ the behaviour of thousands of cattle, scientists have found that they tend to face north after aligning themselves with the Earth's magnetic field.

The astonishing ability appears to be a (2) _____ of the days when the wild ancestors of today's domesticated cattle used inbuilt compasses to find their way across the plains of Africa, Asia and Europe on long (3) _____.

Although cows are famed for their ability to (4) _____ rain hours advance, their talent for navigating has so far gone overlooked.

Dozens of species of animals use the Earth's magnetic field to navigate - including birds, turtles, termites and salmon. The ability is also (5) _____ in some mammals including rats and bats. Animals are thought to use (6) _____ magnets - made of crystals of magnetite - to find their way around. Homing pigeons, for instance, have a tiny blob of these crystals in their beaks. Dr Sabine Begall and colleagues from the University of Duisburg-Essen used Google Earth to find images of cattle in worldwide locations including Britain, Ireland, India and the U.S. They

(7)_____directly observed almost 3,000 deer in the Czech Republic. Their researches suggested that cattle were behaving in the same way as their close relatives, the deer. (8)___the direction of the wind and sunlight varied hugely in the different locations, the scientists were able to rule out weather and the position of the sun as an explanation. “We conclude that the magnetic field is the only common and most likely factor responsible (9)_____the observed alignment,”the researchers wrote in the journal Proceedings of the National Academy of Sciences. Gwyn Jones, who (10)_____kept dairy cattle for 25 years in WestSussex, confirmed: “They know what weather to (11)_____in advance. Beefcattle will head up to higher altitudes if the weather is going to good. “My dairy cattle have their favourite fields where they go if it is going to be sunny.

“I let mine go in and out, and if it's (12)_____to be wet they head inside.

“In rough weather they like to have their backs to the wind. But I've not noticed a preference for facing north.”

Native English Animals

By Nicola Jane Soen

Now England has hardly any predatory animals in the (0) A, but has it always been that way? Not according to ancient rhymes. England was once a country where predatory animals freely roamed and so danger lurked.

Many centuries ago bears, wolves, lynx, etc, ranged the forests and woodlands. Also wild boar, Elk and Aurochs (wild bulls) were (1) _____. However, although some of these species hung on till medieval times, most of these animals were long gone by that time. The last English wolf in England was (2) _____ killed and the population extinct by the 16th century, although in Wales it is thought to have lasted a few centuries (3) _____. The great Auroch herds did not last nearly as long and were sadly gone as early as the 9th Century, although on the continent it lasted for many, many (4) _____ centuries.

There was an even bigger size herding animal in Britain in the early centuries. The Giant deer species called Megaloceros, with an antler span of up to 3 meters; it was possibly (5) _____ by the time Neolithic man was making wooden stockades. But the antlers were often found, and perhaps used for digging with.

Lynx is thought to have gone by the 10th Century, in England at least. 1. Top 5 Time Management Tips

From Grace Fleming

0 A

Good time management skills can help students increase their grades and improve their overall school work performance. By learning to complete assignments on time every time, students will have a better classroom experience. Discover which tips are right for you.

5. 1.1.11 _____

Do you find yourself rushing to complete your homework assignment at the last moment? The root of this common problem may be time management. This easy exercise will help you identify the tasks or habits that take time away from your studies and help you develop more healthy homework habits.

2 _____

"The assignment is due when? Tomorrow?"

Somehow, that assignment due date just slipped right up on us without our noticing.

That is why organizational skills are so important to school performance. Who can afford to score a big fat "0" on a paper just because we got lazy and didn't pay attention to the due date?

3 _____

If you have a Yahoo! account or another email system, you can use the free calendar feature to organize your homework. You will be able to enter each assignment as you receive it, make notes, and receive reminders as each due date approaches.

4 _____

Procrastination is like a little white lie we tell ourselves. We think we'll feel better if we do something fun, like watch a TV show, instead of studying or reading. But when we give in to the urge we always feel worse in the long run, not better.

5 _____

If you're like many students, you sometimes have trouble getting started on a project, because the end result seems so far away and impossible to reach. Sometimes when you start out with an idea and a blank sheet of paper and look into the future, all you see is lots and lots of unfinished research, reading, planning, and work. Next time try starting at the end and looking backward!

A Use Time for Better Results

B Send Yourself Reminders

C Use a Day Planner

D Avoid Delaying Assignments

E Identify Time Consuming Habits

F Attend to Unfinished Tasks

G Try Backward Planning

H Organize Your Desk

I really love working with flowers and also have loved learning Photoshop CS2 and InDesign. My first book was created just for florists, with a CD for their web sites' images. Most people do not realize that 95% of all images online for florists belong to wire services and so the book filled a niche. I now have been creating floralcookbooks for people who are not florists with simple instructions to help the beginner.

I am trying to learn as much as I can about the fauna. I love writing about my dogs, be it training, or the unconditional love they give. I am also exploring the dream of selling everything I own, packing up the dogs and seeing the US in a recreational vehicle. Any suggestions to sites, forums, etc that will help me fulfill my dream of travelling with my dogs will be appreciated!

I absolutely adore horseback riding. I own three horses here in the UK. A stallion named "Perseus" who is insane and I think that's why I prefer to ride him and a new stallion named "Disraeli". He's even a bit more crazy than the other. It's always a fight of wills and I love the fight. The other is a mare named "Seripho" who is an absolute sweetheart. Besides riding, I play tennis and just started taking boxing lessons; it's a killer workout.

3 Jerry E Spencer

I have travelled all over the world and have seen a lot of things in my life, and I have loved all of it. I am a people person, I like talking with people from all over the world. My wife says that I talk more than ten women put together. I would like to help as many people as I can with my writing. I feel if I can help you out with something, then I have done some good out here in this world. And that is a good feeling.

Although I am English I have been living in the Philippines for the last 10 years and contrary to what you may have heard about all the bad things in the Philippines it is a wonderful country with loads of opportunities.

I believe very heavily in taking action rather than just talking about things and my programs are based around weaving the principles of wealth into our lives rather than living superficially. If you would like to be part of my team in any way or if you would like any help you can contact me anytime.

Each year, hundreds of people all over the world send and receive Christmas card. But have you ever wondered when and where the first card was produced? You might think that exchanging cards at Christmas is a very ancient custom - in fact it is barely 100 years old. The idea of exchanging illustrated greetings and presents is, however, ancient. The Egyptians gave each other symbolic gifts such as inscribed scarabs to celebrate the New Year, while the Romans exchanged golden laurels or streae (sometimes made of olive branches). Lamps bearing the inscription "May the New Year be happy and lucky for you" were also given.
